PROFILE SUMMARY

I consider myself a responsible and orderly person. As a developer am responsible for developing new user-facing features, determining the structures and design of web pages, building reusable codes, optimizing page loading time and using a variety of markup languages to create the web pages. **I am looking forward for my first work experience.**

PROJECTS

➤ E-Commerce Website

By using React JS made with reusable Class Components. simple ecommerce project for grocery.

➤ React API Fetch Table

By using React fetch the API with Axios and map it to render a table. then it can be editable and re-stored the data.

➤ React TodoList App

By using React make a Todo app with locally stored data to check the activity and more features .
