About Me

React and Node Developer with 2 years of experience building scalable web applications using React.js, Node.js, and Nest JS. Proficient in JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, and backend development with Express.js. Skilled in PostgreSQL, and integrating REST APIs, JWT authentication, and Socket.io. Experienced in using Redux, Git/SVN and working in Agile Methodology. Passionate about delivering clean, efficient, and user-focused solutions.

Education

- AVC COLLEGE OF ENGINEERING B.E-Mechanical, 2020
- UI REACT JS COURSE , 2023

Experience

React Developer *(Frontend Developer)*
Srinsoft technologies private limited, chennai   2023 - 2024

React and Node Developer *(Fullstack Developer)*
Srinsoft technologies private limited, chennai   2024 - Present

Career Projects

Billing Application
Client: US-based logistics platform

Role: Developed dynamic and reusable UI components; integrated REST APIs for data retrieval and submission; handled user authentication and role-based access controls.

Document Management System
Client: US

Role: Designed and built backend APIs using the NestJS framework; collaborated with frontend developers for seamless integration; this was the first hands-on Node.js project post-training.

Vendor Onboarding Application (Microsoft Power Pages)
Client: US based logistic platform

Role: Independently developed dynamic vendor onboarding forms with support for document preview and digital signatures; ensured cross-browser compatibility and user-friendly validation.

Company Internal Website Maintenance (6 Websites Including a Podcast Platform)

Role: Handled full maintenance for six internal websites; created new event pages, updated infographics, eBooks, and landing pages; built new AS400 content pages; led end-to-end implementation and deployment independently.

Real-Time Chat Application (Personal Project)

Built a real-time chat app to understand WebSockets and event-driven architecture.
Features included user registration/login, room-based chat, and persistent message storage.
